114m²

60m²

N/A

A well situated town house just off the main street with flexible accommodation. At street level there is a large room, with double door access to the street, which was used as a hairdressers in the past. It has a walk in storage room and separate toilet and is connected to the main house. This area would be ideal for conversion to a separate apartment to provide a home and income. The main house is entered via a street level door and stairs lead to the first floor living area with Juliette balconies and new patio style doors, the kitchen is well fitted, with built in oven and hob and a good range of cabinets. Stairs from here lead to an upper hall with balcony overlooking the street and two double bedrooms, a bathroom and small terrace. From the hall way, stairs lead up to two more rooms suitable for another bedroom and bathroom and a pretty roof terrace with views across the town to the mountains. All windows and patio doors are new and the house is in good decorative order. #ref:APN7167
