Two adjoining houses offered for sale together, one new and one old currently used as a garage and storage. The main house has two floors. On the first floor we find an entrance/living room and two further rooms, one of which is currently fitted out as an office. The hallway contains a lift to the upper floor, making the house very suitable for someone with mobility problems. From the hallway there is a fully fitted kitchen, a large living room with fireplace and a small pantry. On the newly renovated 2nd floor are two bedrooms and a new bathroom designed with wheelchair use in mind. A door leads to a terrace with views to the castle. The second house is very old, but perfect for reform, it is currently fitted out as a large garage, with a small storage room. A staircase leads to the second floor with two bedrooms under the eaves. From the garage a door leads to a courtyard, where there is a bathroom and an outside storage room. The outside spaces of both properties could be joined together creating a flexible area . #ref:APN6216
