This is a really difficult property to describe as it is one of three that have been created within an old olive mill and doesn't conform to the usual house layout. You enter through double gates to a parking area with a large outside kitchen which also serves as a carport in the winter. To the front of the property there is a raised swimming pool with terrace and steps to the front door, which in fact leads to a two level internal patio. On one side there is a double bedroom and on the other a sitting room, bathroom and two further large bedrooms. Across the patio and downstairs there is a utility room and a very large kitchen/2nd sitting room with a door to the outside. From the patio level there is also a door to the opposite side which leads out onto a tiled terrace and into the well kept gardens with orange, lemon, fig and other fruit trees. There is also a very useful workshop/warehouse and other storage buildings. The land of 3,418m<sup>2</sup> is fully fenced. Access is via tarmac road and within walking distance of shops etc.

Esta casa es una de las tres que se han creado dentro de una antigua molino .Se entra a través de puertas dobles a una zona de aparcamiento con una gran cocina exterior. Al frente de la propiedad hay una piscina elevada con terraza y escalones a la puerta principal, que de hecho conduce a un patio interior de dos niveles. A un lado hay un dormitorio doble y al otro una salon, un cuarto de baño y otros dos dormitorios grandes. Al otro lado del patio y en la planta baja hay un lavadero y una cocina muy grande/salón con una puerta al exterior. Desde el nivel del patio y una puerta a una terraza y a los jardines con naranjos, limoneros, higueras y otros árboles frutales. También hay un taller/almacén muy útil y otros edificios de almacenamiento. El terreno de 3.418m<sup>2</sup> está totalmente vallado. El acceso es por carretera asfaltada y a poca distancia de las tiendas, etc.
